

# Property Road Show in Hong Kong

Mitsui Fudosan Realty held a two-day event, in collaboration with a leading property agency in Hong Kong, to present investors with en-bloc investment properties in Japan from Thursday 16<sup>th</sup> thru Friday 17<sup>th</sup> of June. We have held this kind of road shows in Hong Kong continuously since October of 2015, and this is the third of its kind. As the number of participants counted more than 30 and some of the clients immediately flew over to Japan to inspect properties, we reconfirmed heightened interest in Japan property investment among Hong Kong investors. We would like to express our gratitude here to all the people who participated. Thank you.
